

Marina Bay Tides

February 2018

Remember,
Red Right Returning!

The Entrance Channel at extreme low tide showing why the buoys matter! Navigate carefully and don't cut the corners!

**Please Return Dock
Carts to the Gatehouse!**

Returning dock carts does more than just save time for your dock mates; it prevents dock carts from being Lost at Sea (or hijacked from the parking lot). Once in a while we recover a few of the ones who end up in the water and they are quite a mess when they are recovered. Please keep in mind that when dock carts are not returned to the gate house, they are more likely to end up in the water, or disappear from the parking lots which cuts down on the number available. Please bring the carts back so we have them ready for use at a central location!

Stuff on the Docks?

If you have any stuff on the docks, please help us out and remove it. Nothing should be stored on the docks but your dock steps (and please don't store any chemicals in or under your steps). The docks are a fire lane that must be kept clear. The maintenance staff may remove things that don't belong (including kayaks & dinghies). Please contact the Harbor Office if you have any questions.

**Protect your Shorepower Cord,
prevent damage to your boat!**

After Hours Emergency Call

510-236-1013

Select Option 3

(you don't have to wait for the message to finish)

Fortunately it doesn't happen too often but if there is a problem that can't wait until the morning, please use the Emergency Call option to page us.

Please report suspicious activity to RPD: 510-233-1214

**Shut off the breaker at
the dock box every
time you plug or unplug
your shorepower cord!**

Plugging or unplugging energized power cords can damage them which can lead to damage to your boat's electrical system or fires.

Please leave the 20 Amp dock light breaker ON!
