

# Marina Bay Tides

May 2019

## Fire Extinguisher Inspection May 16 & 17

The Marina's annual fire extinguisher inspection will be Thursday, May 16 and Friday, May 17. If you wish to have your extinguishers inspected, stop by the Harbor Office Shop from 9:00am-4:00pm to deliver your extinguishers directly to the service technician. If you cannot come by the on those days, feel free to drop your extinguishers off ahead of time and pick them up after the inspection.

**Please make sure to clearly label any fire extinguisher clearly! Include your name, slip number and phone number.** For more information, contact the Harbor Office.

## Working on your Boat? Make sure nothing ends up in the water!

Marinas are always under scrutiny regarding our impact on the marine environment so it is imperative that anyone performing maintenance on board take adequate steps to protect the environment.

**Prevent ANY dust & debris from getting into the water!** Use tarps to create wind breaks and traps, use your shop vac attached to power tools and don't do work that will create dust topside when it is windy!

Make sure that any paint, solvents or other liquids are contained and there are no drips on the dock or in the water.

If you have any questions about the scope of your planned work please contact the Harbor Office in advance.

## Repair Projects!

The E-Dock dumpster enclosure is at long last getting close to completion.

Starting in June we will have a major repair project beginning at E-Dock which will convert a number of 30' slips to 40' slips. The tenants in the affected slips have been notified already. We expect only minimal disruption to water and power for the rest of the dock during this project.

## Changing your oil?

The Marina has facilities to recycle used motor oil and filters and to dispose of used absorbent pads at the Launch Ramp & D Dock.

Contact the Harbor Office for access (**Please don't just leave the containers outside the sheds where they can leak or spill**).

Please do not mix anything with the oil, especially any coolant, fuel, brake cleaner or other solvents.

For info on how to safely dispose of any other hazardous items go to: [www.recyclenore.com](http://www.recyclenore.com).
