

Marina Bay Tides

September 2019

Insurance Certificates

Part of the contract with the marina specifies that boater owners need to provide copies of their current insurance certificates. Lately, we have seen several companies become less reliable in automatically sending renewal certificates to the Additional Insured (ie the Marina). In particular, BoatUS and Geico, following their merger, have told us they will try to but will not guarantee to send renewal certificates to the Additional Insured (ie the Marina).

Other companies may have a similar position. If you are contacted by the Marina office because we have not received your insurance certificate, it is because we have not received it following the expiration of your previous certificate (or, in some cases because it is missing some requirement).

Notifications start with your statement, the month prior to your insurance expiration date on your statement will be a notification that your insurance will expire, "Please send us a copy of your declarations page or certificate." The boat owner is responsible for making sure we have a copy of adequate insurance on file at all times.

F-Dock Waterline Replacement

We are beginning the process of replacing all the water lines on F-Dock. This is a long-over due project and the frequent waterline breaks on F-Dock this year are apparently nature's way of saying we are well past the end of the effective life span of the existing water supply system. The process will be very similar to the fire line replacement last year where the contractor will make up the HDPE pipe on the dock first before submerging it and installing it under the dock. There will be extended periods of time where water will be off to sections of the dock when they are removing the old pipe and installing the new.

We will do our best to minimize the disruption and give as much notice as possible but we encourage everyone to fill up their tanks in advance or be prepared to do without for several days until the water can be restored to their section of dock.

Coastal Cleanup Day

Saturday, September 21

California Coastal Cleanup Day is part of one of the largest volunteer events of the year. Participate locally on September 21.

Let's Make Trash Extinct!

For more info or to get involved, go to: www.coastalcleanupday.org

International Talk Like a Pirate Day September 19 Arrr!

Magic Lamp

A Pirate ship comes ashore for a night at a mysterious island between Arabia and India. The first mate ends up in a bar sitting at a table with an oil lamp on it. The lamp is dirty, so he rubs it clean, and a great genie comes out, granting him any three wishes he wants.

Immediately he wishes for a huge mug of beer that can never run dry. "Granted" says the genie. Excitedly the pirate downs the entire mug, and as promised, it magically refills itself. He empties it again, and it again, magically refills, just like he wanted. "This is great!" he says.

"And what about your second and third wishes?" asks the genie. The pirate, still excited about his mug quickly says, "I'll have two more just like this!"
