Updated Complete Rate Sheet

The Marina recently mailed out a copy of the current complete rate sheet. This is just an administrative notice informing every one of the current rates. In the event that you will be impacted by any specific rate increase for any of your recurring charges you will receive a separate 30 Day Notice to that effect.

If you have any questions about your rate(s) please contact the Harbor office.

Liveaboard

Liveaboard usage at the Marina is restricted and the COVID-19 pandemic has not changed any of the requirements or eased any of the restrictions on living aboard. Contact the Marina BEFORE starting to live aboard!

Living aboard without authorization is not only a violation of the terms of the Berth License Agreement and the Marina's lease and permits but it is also a violation of City Code.

Because of the undue negative impact on Marina resources created by a few who try to live aboard without authorization, a new fee of **\$500 per month** has been implemented for violators. Avoid this fee like the plague, don't violate the liveaboard rules!

Anyone who is thinking about becoming a liveaboard, PLEASE contact us well in advance so that we can work with you. We will do our best to accommodate people with qualifying boats wherever possible but anyone who starts by violating the rules may find their options severely limited.

Pirate Haiku

*A bold privateer
Seeks a booty beyond price:
Pirate underwear*

*Bird on my shoulder
Red and green feathers, and he
Swears like a swabby*

*I be more pirate
yer salty hide can't outdo
my two eyepatches*

*A pirate off-guard
speak of the steering wheel joke
aye, it saves the day*
